RALTIMORE WINS WITH THE AS-SISTANCE OF THE UMPIRE.

THE USUAL UMPTRE WAS NOT PRESENT

So a Player From Each Side Acted ... The Baltimore Man's Outrageous Decision...Discipline Needed.

The man who makes robbery a vocaion and plies his trade with the chances of being punished If detected, is respeciable along side of an umpire, whose sense of fairness is so far gone as to permit him to make decisions which even his own players do not uphold. In the absence of the regular umpire vesterday, the Washingtons and Baltimores agreed to play the came with a man from each side as umpire, and Nicholas was selected for the home team and O'Rourke for the visitors. They alternated behind the bat and on

Nicholas tried to be fair, and there was only one decision in which there was the least cause for kicking on the part of the Baltimores, but O Rourke snew what his duly towards his club was, and did it perfectly. It was neither more nor iess than to give the Baitimores the game, and he did it. Every decision he made was in favor of his team, and finally he capped the climax by calling the game at the end of the seventh inning, on account of darkness.

darkness.

It was just 6:30, and there was plenty of light at that hour and for an hour and a half later. It was one of the most outrageous decisions ever made on a ball field, and had it not been for a squad of policemen O'Rourke would have fared badly at the hands of the crowd.

Usually player umpires try to be fair. O'Rourke did not. He knew Baltimore wanted the game, and he succeeded in getting it for them. Such men are not fit for the society of respectable people, and it may be some little gratification to know that his release was determined on some days ago. His good work yes-terday, however, may result in his re-tention for awhile, as it would be a hard matter to find another of his kind among the profession.

The game itself was a disgraceful exhibition on the part of the Baltimores, Power ceached O'Rourke In his decis-lons, and whenever the Oriole captain made a protest against a decision of Nicholas his man Friday was on hand back him up in it. He went outside f his province as an umpire to try to sackcap any decision that was made by dehotes.

Baltimore batters were called safe at irst, when the ball was there in ample ime to put them out, while Washington men were called out when they were over the bare. It is a wonder that the local team made as good showing as hey did. As for winning the game, they stood as much show as the tradianal leeberg does in a certain heated

That Washington was outbatted and uffielded cuts no figure in the case, because of decisions which made such an event possible. The game will undoubtedly be protested, and there can be no doubt but what it will be ordered

played over again.
In regard to the Baltimore team it is safe to say that hereafter it will never receive a cent of the guarantee money until the game is played out. Unluckily the management settled with them be-fore the trouble arose. Had it not done so they would not have received a cent of guarantee money. One thing is certain, and that is that O'Rourke will not be paid for his services unless it is by the Baitimore Club.

To add to the disgraceful features there was a large-siz suspicion, that almost amounted to certainty, that a couple of the visiting team were under the influence of liquor. DISCIPLINE NEEDED. Yesterday's game showed that several of the Washington players are in need of a little disciplining, and the more severe it is the better will be the effect on the other men. Jordan, particularly, ought to be fixed for his baby playing yesterday. He muffed a bal right in his hands, and then, instead of throwing it home to cut off a runner,

ectulantly threw it on the ground in be direction of second base. It was an exhibition of anger that hould not be tolerated and a libera-dice of Jordan's salary would tend to make him remember that he has eight to vent his anger by throwing away chances. As it was Sollivan in tended to take him out of the game for but he berged so hard that Ted al-

lowed time to remain in it.

Again, Bird in the seventh inning, after a fly half to luft had fallen safe, instead of running to third as he should have done, ran back to second and was easily put out. It was a piece of second that the second are the second and the second are the second and the second are the second and the second of stupidity that ought to cost him

iomething.
In addition to the stupid playing In addition to the stupid playing which some of the team are fadulging in, it would, perhaps, he well to inquire late some of their habits. One man was released during the trip for drinking, and the assertion was made yesterday that others were drinking more than is good for them on the team. Such things hurt the club, in more ways than one, and it is about time they were brought up with a round turn and made to earn their salaries. It cannot be done too quickly. alaries. HIS IDEA OF WOMEN.

What a Prominent English Author Thinks of American Ladins - A Com-parison With European Girls, A well-known English author, who was ently in the United States, was entertained by a gentleman and budy of wealth, residing on Fifth Avenue, New York. In the course of the dinner the conversation urned upon American women, when the

English gentleman said:

English gentleman said:

"Nowhere in America do you find such complexions and nowhere such health as we see in the faces and forms of English girls. I have noticed the inevery city that I have visited. American ladies look tired, weak, faded. They lack color and they look life. Existence seems a burden to them, not a pleasure. You in America do not notice ft, because you are here, while I can see it very plainty."

We may say that this English author was prejudiced, was conceived, was bitter, but we cannot say that he was wrong. American ladies are not so strong, so healthy, so brilliant as they should be. Their complexions are not so clear, nor their eyes so bright as could be desired. Doutstless the elimate has conceiving to do with this, but it is unquestionably true that, by proper care and a judicious use of the right means, these things can be overcome. Any lady who feels thred, despondent or weak, can readily overcome these troubles by a proper use of a little paire whiskey taken in water. Bear in nind, however, that it should be the best whiskey, as anything clay is injurious, and also remember that the best physicians and chomists in America unbestitatingly declare that Duffy's Pure Malt has no equal. The and remainter that the best physicians and chemists in America unbestiatingly declare that Duffy's Pure Mait has no equal. The effect of this whiskey is to build up the system, to improve the complexion and to give brightness and vigor in the place of weakness and languor. It is being used by the leading ladies in the land, and its popularity proves its value.

Proposed Home for Types,

The session of the Typographical Union vesterday at Atlanta, Ga., was more especially devoted to the consideration of the report of the law com-mittee. The special committee ap-pointed to consider matters pertaining to the proposed home at Colorado Springs reported favorably upon the use of the Childs-Drexel fund for that purpose. A per capita tax of \$1 yearly is to be levied for the support of the home. The \$50,000 home will undoubtedly be built at Colorado Springs.

In contemplation of the Government building the new city post-office on the site new occupied by him as an oyster house and saloon, Mr. D. Crowley has leased for a term of years the premises, 1216 Pennsylvania avenue, formerly occupied as the original "Oyster Bay," and one of the best known hosteiries in Washington. Mr. Crowley will continue to cater to the best trade in the city. The place he is about to move into has a record as old as Washington itself, and under Mr. Crowley's management it will reach high-water mark as a first class resort.
